

## Government Pricing Analyst II

**Department:** Government Pricing    **Reports to:** VP of Government Pricing  
**Classification:** Full-Time Exempt    **Direct reports:** None

*Don't be just a number - join our small, elite, and entrepreneurial team of professionals in serving pharmaceutical manufacturers through business processing and pricing analytics services. Leverage your analytics skills and experience to make a measurable difference in the success of our clients' growth and profitability. In return, Prescription Analytics offers employees a competitive base salary, bonuses, 100% employer paid individual health benefits, career growth & mentoring opportunities, free lunches, on-site massages and more.*

### Role Overview

The Government Pricing (GP) Analyst II will help support Prescription Analytics through the execution of Standard Operating Procedures defining Sales Operations & Market Access Support, Government Pricing and Analytics Services for PAI pharmaceutical clients. The GP Analyst will work independently as well as partner with other members of the PAI Team to ensure timely completion of all monthly and quarterly operating plan action items on a timely basis while adhering to client specific SOPs.

The GP Analyst will also possess expertise on specific client strategy, operations and products as well as Federal and State Law, Guidelines, Policies and Provisions specifically related to pharmaceutical company requirements for supporting their commercialization efforts, contracting, reporting and pricing analytics.

The GP Analyst II is a key client interfacing position. She/he will support PAI client deliverables through proprietary analytics, modeling and forecasting methodologies developed by the company. The high quality of work and timely delivery to support client needs and requirements ensure ongoing client satisfaction and continued long term relationships.

### Job Responsibilities

- AMP computations and all associated quarterly GP calculations/ reporting requirements (Medicare ASP, VA NFAMP, 340b/PHS Pricing, etc.)
- Facilitation/Implementation of Government Contracts (Medicaid, Medicare, Veterans Affairs, Public Health Service).
- Client facing; point of contact for small to mid-sized, and low- to mid-complexity clients
- Assist with restatement and other ad hoc client projects
- Basic sales operations support as requested
- Assists with State Price Transparency Reporting

### Ideal Candidate

Prescription Analytics is seeking individuals with a passion for learning and having an influence on the company they work for and the clients they serve. If you love applying your ability to problem solve, turn disparate data into meaningful and actionable information and becoming an invaluable asset to clients, this may be the role for you. To this end, the following:

### Requirements

- Strong consultative and client interfacing experience
- Work well as part of a small entrepreneurial team
- Self-motivated and has ability to consistently meet required deadlines with minimal supervision
- Analytic & mathematic proficiency
- High level of proficiency in Microsoft Office suite; specifically, Excel
- Experience in the pharmaceuticals/healthcare industry a plus
- 3+ years experience in an analytical role

### Key Skills

- Intellectual curiosity
- Detail oriented
- Ability to multi-task
- Ability to self-manage workload and meet key deadlines
- Ability to creatively apply technology to solve business challenges and leverage opportunities
- Strong client interfacing, communication & organizational skills
- Scrupulous attention to detail
- Desire to work in a fast-paced entrepreneurial environment
- Permanent work authorization in the U.S.
